Automate Your Meter Readings and Service Calls with @remote.

@Remote is a free feature available on most devices sold by CRPC that allows for automated meter readings and service calls. Customers with @Remote enabled will no longer have to manually submit meter readings, saving your company time and ensuring accurate and prompt billing. Additionally, our service department will be able to minimize your downtime by being automatically notified of many common problems like error codes and recurring paper jams. Setup is free for limited time only.
